SPACE, WOMEN AND CARS

The activities of Stirling Senior Citizens seems limited to cards, dominoes, checkers and eats. Now with that for material, if you were dis ole Scribe what would you write? I will say we are good eaters and we have good providers.

Two weeks ago Elizabeth Foster and Blanche Reid provided lunch and last week Lillian Heasman and Pres. Fred did the trick.

Now let's talk about space, women and cars for a change.

Do you know the Indian thinks he's going to get his land back again. He thinks all the pale face are headed for space. Talk about space, dis ole Scribe can recall when the sidewalks of Stirling were crowded with women. Now there seems to be lots of space — of course that was before girdles were invented. Since then women have taken up one third less space.

Speaking of women reminds me that once a little six-year-old said, "Daddy before you got married, who told you how to drive?" Today a driver needs someone to soothe him. The new cars are really powerful. They've got power brakes, power steering, power windows, power antennas — there's so much power the driver doesn't drive, he just sits there and trembles.

We heard of a guy who drank to make him steady. Once he got so steady he couldn't move.

One thing about a woman driver. When she sticks out her hand you can be certain she's going to turn left, turn right, back up or stop, or dry her nails.

dis ole Scribe

Fish & Chip Suppers Starting Feb. 13th.

Everything is "a hustle and a bustle" in St. John's Church Men's Club as they prepare for their annual Lenten Fish and Chip Suppers, which start on Friday, February 13th.

Again the men hope to make your suppers with them or home deliveries if you can't make it, a tasty and satisfying experience.

Douglas Patterson, brought in the suggested store hours for 1970. These were discussed at some length. The store hours and holidays for the year will be printed and distributed to the merchants in the near future, thus eliminating confusion as to when the local stores are open or closed. It was also suggested that the Post Office, Library and LCBO Store hours be included on the card.

Santa Claus Parade Dec. 5th

It was decided to hold the Annual Santa Claus Parade in Stirling on Saturday afternoon, December 5th. More details on this event will be discussed at a later date.

FUNNY YOU SHOULD SAY THAT

This quartette's somewhat sober appearance belies the fact that they are four of the funniest people in Canadian radio. Peter Cullen, Ted Zeigler, Barrie Baldaro and Joan Stuart (clockwise) comprise the cast of Funny You Should Say That, CBC radio's rib-tickling comedy show, heard Sundays at 5.03 p.m., EST. Described as "a kind of undated Spring Thaw out of The Goon Show by Laugh-In with overtones of Playboy", Funny You Should Say That also features singer Sheila Graham and the Tony Chappell Orchestra.

Darwin Was Wrong

Three monkeys sat in a cocoanut tree
Discussing things as they're said to be.
Said one to the other, "Now listen, you two,
There's a certain rumor that can't be true;
That man descended from our noble race;
The very idea is a disgrace.
No monkey ever deserted his wife,
Starved her babies and ruined her life.
And you've never known a mother monk
To leave her babies with others to bunk.
Or pass then on from one to another
Till they scarcely know who is their mother.
And another thing you'll never see;
A monk build a fence 'round a cocoanut tree
And let the cocoanuts go to waste,
Forbidding all other monks a taste;
Why if I'd put a fence around the tree,
Starvation would force you to steal from me.
Here's another thing a monk won't do —
Go out at night and get in a stew,
Or use a gun or club or knife
To take some other monkey's life.
Yes, man descended, the ornery cuss,
But, brother, he didn't descend from us." — Richmond Rotor.

Neatly pressed trousers often help a man to land a good job. This must be what is known as "the power of the press."

Fatal Accidents

More than half of the fatal accidents in urban areas happen at speeds under 30 m.p.h. says the Ontario Safety League. The legal speed limit is set for ideal conditions; drivers should unhestitatingly reduce speed when conditions are poor. Drivers and pedestrians alike should remember that urban traffic is potentially dangerous at any speed.

Dollars and Good Sense

by WILLIAM J. MARTIN

This column is a regular weekly feature prepared by the family Financial Councelling Service of the Avco Delta Corporation, P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered, in print or by return mail. Names will not be used in print However, all questions should be accompanied by a complete name and address.

QUESTION — Dear Sir: Together my husband and I make over $16,000 a year. We're both 25 years old and feel this is a very good income. But the problem is should we just try to live on his salary and bank mine or should my check also go for everyday living expenses, vacations, etc?

Mrs. G. I.

ANSWER — If you two can't live on $10,000 a year at your age and with no responsibility (you didn't mention any) in the area where you work and reside — you're in pretty bad shape. I know a number of young couples who make much less than that and are managing quite well.

The point is, Mrs. I., don't get used to living on that $16,000. It may not last forever. Suppose you were unable to continue working because of maternity reasons, etc.,? If you have been living on the combined income, you would suddenly find yourself shy almost 50% in the income department. That's a drastic reduction. So, put your money where it will earn interest for you and work for that future home or whatever else your goals may be.

QUESTION — Dear Sir: What do you think of a husband who gives his wife a certain allowance each week and expects her to run the house with it? It's been the same for the past several years.

ANSWER — Not much! Nor, on the other hand, do I think much of a wife who won't demand more money for household expenses.

Realistically, however, I don't know how I can help in this case unless, perhaps, you show this column to your husband, If you can't convince him that the cost of living has skyrocketed then I don't know who can.

There is a little trick you can try. It really isn't a trick. It's actually a very simplified type of budget. Take a piece of paper and draw a line down the middle. On one side, label it "expenses" and list here all the items you spend money on during the week. Everything. On the other side of the line, enter under "income" the amount your husband gives you. Then, subtract "expenses" from "income" and enter the results at the bottom cenre of page, underscored.

If he doesn't get this message, Mrs. W., ask him if he will try running the household for a week on the same amount you receive.

QUESTION — Dear Mr. Martin: Are warranties and guarantees worth the paper they're printed on? I had an experience recently with the dealer where I bought my new car that leads me to believe otherwise.

Mr. B. D.

ANSWER — Reputable manufacturers and certainly in your case, automobile manufacturers, stand behind their guarantees and warranties. They must or suffer from some bad public relations and perhaps, legal action. Often, the trouble falls in that middle ground between manufacturer and consumer. Anyone having difficulty with a certain dealer, no matter what the product, should write directly to the manufacturer, with a copy to the dealer. Usually, manufacturers are anxious to learn about any problems concerning their dealership.

Sometimes, you may be surprised at the results. A case in point concerned a lady who wrote me recently stating that her faith had been restored in a certain company. When the product did not perform to her satisfaction and to the manufacturer's advertised claim, she wrote the company. They quickly refunded her money and urged her to continue using their product . . . . which she intends to. In this case, however, the lady was dealing directly with the manufacturer and I suspect that she wasn't using it exactly according to the instructions. I also suspect that the company knew this too.

There is a psychology behind the guarantee. For one thing it's an excellent sales promotion gimmick. And for another, manufacturers know that most people who are totally dissatisfied, for example, will not bother to take the time and trouble to write, package and return the product to the manufacturer.

I've always maintained and advocated that if you're unhappy with a product . . . let the people who sold it . . . or made it . . . know about it. Nine times out of ten they'll be glad you did.

Stop! It Could Save You Money

(Picton Gazette)

A "stop" sign means stop!

A local motorist was surprised, to say the least, when he went to the office of the Provincial Court Judge here to pay a fine for a summons for not observing a "stop" sign. He was willing to admit that he had not come to a complete stop in the vicinity of Waring's Corners on Highway 14, even though he had slowed down and, with no traffic in sight in any direction, did not fully apply the brakes as he would have done had there been any traffic.

Going to pay his fine, he expected it would cost him around five dollars, possibly as high as $10, so it was a shock when he was told the penalty was $22.50.

Motorists may not be aware that there was recently introduced a new scale of fines to cover all phases of Highway Traffic Act infractions.

Under the new scale, failing to obey a stop sign, signal light or railway crossing signal, has a fine ranging from $20 to $100 for each offence.

Similar fines are provided for the following infractions:

Failing to stop for stopped school bus.
Following too closely.
Failing to yield right of way.
Failing to report an accident to a police officer.
Driving through, around or under railway crossing-barrier.
Failing to obey a stop sign, signal light or railroad crossing signal.
Failing to obey directions of a police officer.
Improper passing.
Crowding driver's seat.
Wrong-way on one-way street or highway.
Pedestrian crossover.
Failure to share road.
Improper turns.
Failing to signal.
Unnecessary slow driving.
Failing to lower headlights.
Improper opening of vehicle door.
Prohibited turns.
Towing of persons on skis, etc.
Failing to obey signs.

Bank Inspector Frauds

Staff Superintendent James L. Erskine of the Ontario Provincial Police Anti-Rackets Branch reports a recurrence of "Bank Inspector Frauds" this year and warns elderly people and others to be on guard against this form of fraud. These artists generally select elderly and lonely people as their victims. Just recently an elderly Ottawa lady was bilked of her savings in this manner, and an elderly Carleton Place resident was cheated out of several hundred dollars in like fashion and last year there was a number of cases reported in Smith Falls. Probably there have been others as well, for many people are too proud to let on that they have been "had."

It would not be proper, perhaps, to put down in print the adjectives that would fittingly describe people so lacking in moral values that they would prey upon our older citizens. but then again it takes all kinds of people to make a world, and apparently we have them all. And it is a certainty that we are going to have them and all other types of thugs until the punishment they receive for their crimes is severe enough to make them change their ways. The time for ending the pampering of criminals and considering them poor misguided souls is long past.

There are various twists to this bank inspector fraud business, but usually it is a case of the confidence man convincing some honest citizen he is trying to trap a dishonest bank employee. The citizen is tricked into withdrawing a large sum of money, to "see" if the teller records the transaction; the grateful "bank inspector" volunteers to "return" the cash to the account and quickly disappears, never to be seen again.

Citizens approached by such people should inform police right away. In so doing they will be protecting their own interests and helping prevent someone else from getting hurt as well.

It might also be well to remember that the bank manager is available if one is in doubt at any time, that he has years of experience and is trained in advising his customers. The moral of the story is that one should not discuss bank business with strangers who call at one's home, asking about bank accounts. Call the bank or police instead! — Smith Falls Record-News.

THE BIBLE TODAY

The Bible Society exists to make sure that the Scriptures are translated, circulated and read in millions of copies and in languages people can understand.

But you can't EAT Bibles or use them for clothing. The Bible won't do a kidney transplant or put a man on the moon.

What the Bible does is show how real God is and to establish the pattern of his dealings with men.

The hub of the matter is in John 3:16, "For God so loved the world that He gave His only Son, that whoever believes in Him should not perish but have eternal life." (RSV).

This is the best news for a divided world and everyone who accepts it is bound to want to share it with others. "GOOD NEWS IS FOR TELLING." That is why the Canadian Bible Society seeks your support at the commencement of a new year so that others may possess in their own language The Book which tells of God's amazing love to men.

I BELIEVE

I believe in the supreme worth of individual and in his right to life, liberty, and the pursuit of happiness.

I believe that every right implies a responsibility; every opportunity, an obligation; every possession, a duty.

I believe that the law was made for man and not man for the law; that government is the servant of the people and not their master.

I believe in the dignity of labor, whether with head or hand; that the world owes no man a living but that it owes every man an opportunity to make a living.

I believe that thrift is essential to well ordered living and that economy is a prime requisite of a sound financial structure, whether in government, business or personal affairs.

I believe that truth and justice are fundamental to an enduring social order.

I believe in the sacredness of a promise, that a man's word should be as good as his bond; that character—not wealth or power or position—is of supreme worth.

I believe that the rendering of useful service is the common duty of mankind and that only in the purifying fire of sacrifice is the dross of selfishness consumed and the greatness of the human soul set free.

I believe in an all-wise and all-loving God, named by whatever name, and that the individual's highest fulfillment, greatest happiness and widest usefulness are to be found in living in harmony with His will.

I believe that love is the greatest thing in the world; that it alone can overcome hate; that right can and will triumph over might.

Then, with two players in the penalty box for Stirling, Tweed put in the final goal, to make the score 5-4.

On Thursday, the boys came up with their wrap-up victory, defeating Tweed 6-4 in ten minutes of overtime. Stirling goal scorers were Cliff Reid, Robert de Jong and Kevin Solmes, each netting 2 goals each.

Tweed had a 4-2 lead going into the third period, but Stirling came back to tie the game 4-4 on goals by Cliff Reid and Robert de Jong.

The Stirling boys, now having beat out Tweed, move into their league finals and congratulations go to the boys. We would like to thank the many fans who came out to help the boys in their game.

WHO, WHEN AND WHAT

Ross Hoard, one of our very generous Senior Citizens either is a good cook or has some wonderful assistants for he turned up last week with oodles of hearty sandwiches and two lovely cakes for our lunch. Pres. Fred, (who is also very LIBERAL) thanked Ross for his kindness.

The only THOROUGHBRED SCOTCHMAN in our Club — John Kane — celebrated his birthday last week. John is enjoying good health and a happy retirement and plays a stiff hand of euchre. We hope this continues for many years.

They say that the Hastings County School Board has asked the faculty to stop necking in our schools—Next thing, they'll be trying to make the students stop too.

A student told his Dad: "I've got my first part in a play. I play a man who has been married 20 years." His Dad said: "Next time you'll possibly get a speaking part."

I hear there's a new car on the market that may save you money. It's painted red on one side and yellow on the other. If you have an accident, all the witnesses contradict each other.

That's all from us oldtimers. They say an old timer is one who remembers when a family went for a drive on Sunday, every one got in the same car.

Winter Fun For Everyone At Tweed Winter Carnival

Winter fun for everyone is the theme of Tweed's Winter Carnival planned for February 13th, 14th and 15th, 1970, and that is what visitors will find during the carnival Weekend, according to Chamber of Commerce members, who sponsor this annual event.

A torchlight parade down Tweed's main street at 7.30 p.m. Friday night, followed by hockey at the Community Centre, where Marmora and Napanee will meet in an O.H.A. Junior "C" Playoff, will provide the opening night program along with two dances, one modern and one old tyme.

There will be two figure skating shows this year, a matinee on Saturday afternoon, and a night performance at 8 p.m. Both shows feature outstanding amateur skaters from Toronto.

In past years, the Saturday night show has been a Carnival highlight. This year's show promises to be as good as any in the past.

The Kiwanis Pancake Breakfast will start the Sunday activities at 9 a.m. Last year, about 1,000 persons attended the breakfast. This year, the Club members are preparing for an even larger attendance, with plenty of pancakes, sausages and local maple syrup for everyone.

Snowmobile races on Stoco Lake will be the feature of the Sunday afternoon program, with races for the Hastings County Council along with races for both stock and modified machines.

Other Sunday events include hockey at the Community Centre along with snowmobile rides and sleigh rides at Stoco Lake.

A carnival of this type does much to break the winter monotony and add a little warmth to an otherwise chilly season of the year, according to the Chamber of Commerce president, David Morton, who adds that his organization is inviting everyone within driving distance of Tweed to join in the carnival weekend activities on February 13th, 14th and 15th.

STIRLING ONTARIO

PARENTS: We've arranged to have a nationally recognized professional photographer at our store on the dates shown below.

You can have each member of the family photographed in several poses, and pick any one of them for your *free* portrait. We only ask that all children be accompanied by a parent.

DON'T MISS THIS OPPORTUNITY

to get a living color portrait you will treasure always. Several poses are taken and low cost additional portraits are available for those who wish them.

It's our way of saying "Thank You" to our many regular customers, and "Welcome" to everyone else. Incidentally, we believe these photographs are really something special. They're beautifully posed portraits — not snapshots. And don't forget they'll be in *living color*, so dress the children in bright colors.

Friday Night Mixed Bowling League

Well, I guess the Swingers just can't stand prosperity, because last week we dropped right back to the old routine — no points. But I am sure there are better days ahead. The Flyers ended up by taking 7 points from the Hot Shots and, of course, the Jets ended up with all of the points the Swingers should have had. The Flyers are leading with 85 points; H ot Shots in second place with 75 points; Jets have 61 and the Swingers 45.

Ray Poste still holds high average for the men, 234, and Verna Woodbeck 206 for the ladies.

Maurice Faulkner topped the league Friday night by rolling three good games of 274, 210 and 284, with a triple of 768. Bob Corbett also had a good night, with games of 273, 237 and 225, and a triple of 735. Rosa Spry had high triple for the ladies of 591 and Daisy Corbett, the high single of 228.

Other games over 200 were: Ray Rose 216; Harold Morgan 214; Verna Woodbeck 226; Ray Poste 275 and 201; Ralph Park 234 and 210; Ivy Poste 211; Barry Wilson 259; John Reichert 222; Delia Reichert 205; Robert Sararas 228; Ralph Scea 254.

Mary Cooke rolled the high triple of 412 for the B Group.

Births

WATSON — Mr. and Mrs. Paul Watson (nee Faires), West Hill, Ontario, announce the birth of a daughter on Wednesday, February 4th, 1970, a sister for Kimberley and Richard.

IN MEMORIAM

McCRORY — In loving memory of our dear grandmother, Myrtle, who passed away, February 10th, 1969.
Though her smile is gone forever,
And her hand we cannot touch,
Still we have so many memories,
Of the one we loved so much.
Her memory is our keepsake,
With which we'll never part,
God has her in His keeping,
We have her in our hearts.
— Always remembered by her grandchildren. 6-1

McCRORY — In loving memory of our dear mother, Myrtle, who passed away February 10th, 1969.
From hospital bed to heavenly rest,
God took you home to be His guest,
You suffered too much, your pleasures few,
You never deserved what you went through.
You stood the test and stood it well.
I was not there, Mom, to see you die,
To hold your hand or kiss you goodbye,
But I will remember my whole life through,
The last words I had with you.
— Ever remembered by her sons and daughters
6-1

McCRORY — In loving memory of my dearest wife, Myrtle, who passed away one year ago, February 10th, 1969.
If I had seen you at the last,
And held your dying hand,
And heard the last sigh from your heart,
I would not have felt so bad.
I did not know the pain you had,
Nor did I see you die,
I only know you went away
And could not say goodbye.
I mourn for you in silence,
So no one could see me weep,
But many silent tears I shed
While others are asleep.
— Sadly missed by husband, Andy

Ten Pin League

February 8th:

The Slow Pokes (78) were 5 to 2 winners over the Hot Shots (48).

Ladies high single, triple and average, Erika Schleifer, 159, 401 and 136.

Men's high single, John Reichert 214; high triple and average, Art Schleifer, 551 and 169.

John has been watching the men's ten pin bowling on T.V. — the one where one of the sponsors gives a bowling bag for four strikes in a row — so when he got four in a row in that 214 game, announced: "Oh! I won a bowling bag." Proprietor Ray Poste obliged, presenting him with a brown paper bag, inscribed "Bowling Bag", much to the amusement of the bowlers.

Other good games — Ralph Scea had a good day, putting together games of 188, 176 and 164 (528) — his highest triple this season; Art Schleifer 200, 180 and 171; John Reichert 162; Gerald Bailey 158; Ray Poste 151 and 149 and Jack Wilson 149.

Stirling 4-H Homemaking Club

On Saturday, February 7th, the Stirling 4-H Club held their first meeting of the Spring project, "Focus on Fitness".

The leaders, Mrs. E. Wanamaker and Miss Debbie Gliddon, explained the objectives and contents of the Club. This time, the girls will be learning such things as safety in the home and on the road, first aid, and how to make the best of leisure time. An excursion is also being planned to take place soon.

An election of officers was held and after some other brief business, Debbie Gliddon led a discussion on "Mental Health and the Mentally Fit Person". She also showed the girls the required contents of a first aid kit. Each member will have to equip a kit to take to Achievement Day.

The home assignment is to bring at least one worthwhile book which has been read and to collect materials for a mobile to be made at the next meeting.

Any girls, ages 12 or over, who are interested in joining the Club are welcome. This project promises to be very interesting and a great deal of fun.

The next meeting will be held on Saturday morning, February 14th.

Churches Launch Lenten Campaign For World Development

A former Prime Minister of Canada will probe the heads of Canada's four largest Christian churches about their campaign for world development at Ottawa this week. Lester B. Pearson, Howard H. Clark, Primate of the Anglican Church, J. Aurele Pourde, President of the Canadian Catholic Conference, Edward H. Johnson, Moderator of the Presbyterian Church and Robert B. McClure, Moderator of The United Church of Canada, defying all superstition, will appeal to Canadians on Friday the 13th for a cool $3-million during lent.

The event (12 - 1:15) will replace the regular noontime Lenten service at Christ Church Cathedral, Ottawa, with Lester Pearson, fresh from his experience as Chairman of the Commission on International Development, quizzing the churchmen as to what their denominations are doing to help people of the Third World. Canadian singers, David Wiffen and Ann Mortifee will help to build a mood with songs appropriate to the occasion. Pictures depicting the need for aid to developing countries will be projected on a screen at the rear of the chancel.

The theme of the campaign is "Words are no Longer Enough" and all clergy of the Canadian Council of Churches and Canadian Catholic Conference, two of the partners in the soon-to-be-founded Canadian Coalition for Development, have received resource material on the subject. The churches have also adopted a symbol embodying the words "Share Canada," meaning share Canada's affluence with needy people everywhere. It is expected that some will also accept responsibility for projects in Canada.

The particpating churches will accent various themes in appealing to their own denominations. For example, the Anglican Church of Canada has adopted 1% of net income or "3 days pay" as a target. It is expected that this could yield $1,000,000. The United Church, on the other hand, has adopted "Just One Day's Pay to show you really care" as its slogan and is calling for "a minimum objective of half a million" but officials hope this objective will be far exceeded. The Roman Catholics and Presbyterians are expected to produce the remaining $1.5 million.

At 11:30 a.m. those taking part in the service will share a hunger lunch of consomme and dry bread in the Cathedral hall. The service will also be piped into the hall and a multi-media presentation will be shown.

Mr. Pearson will face the churchmen with questions about: "The need for Development"; "Emergency needs in the world"; "Poverty in Canada" and "A question of will."

Archbishop Plourde will report on "Christian Response to Development Needs"; Dr. Edward H. Johnson on "Emergency needs in the world"; Archbishop Howard H. Clark on "Christian Response in the world"; and Dr. B. McClure on "Canadian Christians and the Will to Do."

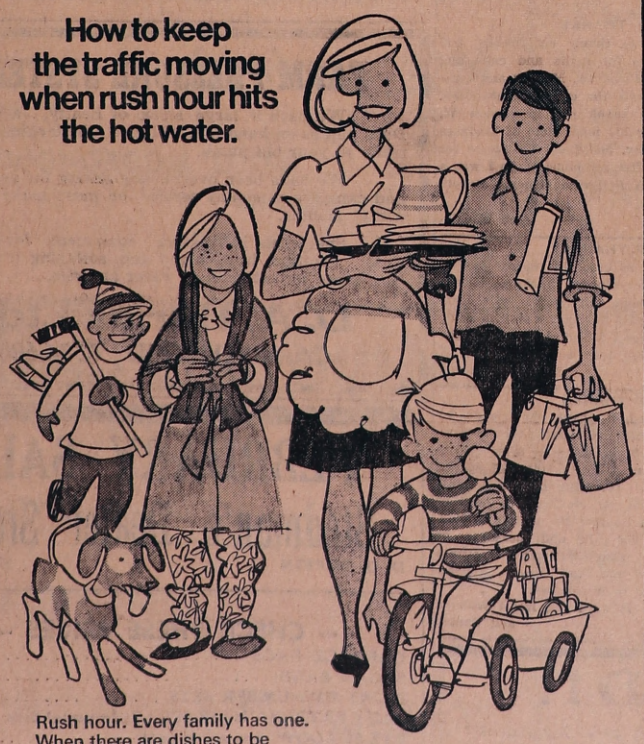
How to keep the traffic moving when rush hour hits the hot water.



Rush hour. Every family has one. When there are dishes to be washed, kids to be tubbed, Dad scrubbing up. Then Sis decides she *has* to have a shower. It takes a lot of hot water to keep the traffic moving.

That's why you need the Cascade electric water heater—the big producer. It's got the capacity a busy family needs, and it's economical, too. Cascade keeps you in hot water for only pennies a day. Ask your Hydro about the quiet, clean, electric Cascade water heater.

History of Automobile Dealerships In Village Stirling

(Stephen Patrick)

Since automobile dealerships have been an important part of Stirling from before 1920, and since they have been increasing in importance to the community in recent times, the News-Argus decided it was time to make a comprehensive survey of car dealerships in the village. The News-Argus visited Stirling Motors (Stirling) Ltd., Wells Ford and Mercury Sales Ltd., and Bill Morton Motor Sales.

Stirling Motors (Stirling) Limited

The News-Argus visited Stirling Motors (Stirling) Ltd. and spoke to Don Williams owner of Stirling Motors since he purchased the establishment from Walter Elliott of Elliott Motors in 1966. Mr. Williams, who had previous experience working in a service station started out in 1956 with three models of Chevrolet, three models of Oldsmobiles and a Chev. truck. Stirling Motors now handles four models of Chevrolet, The Monte Carlo, three models of the Chevelle, two models of the Chevy Nova, two models of the Camaro, four models of the Oldsmobile and four models of the Cutlass. In each of these models are the varieties of the four-door, the two-door, and the hardtop. There are also the options of an automatic transmission, a V-8 engine, colours, interiors, radios and many others. Mr. Williams also deals in Envoy and Epic (by General Motors) and Crevrolet trucks. This year Johnson Outboard Motors, Crestliner Boats and Snow Cruiser, Snowmobiles were added to the list of products handled. Don plans to expand in these latter areas in the future.

When asked about changes in automobile prices through the years, Mr. Williams quoted the price of a 1956 — 4-door standard Biscayne as $2600 in that year, whereas a basic 1970 — 4-door standard Biscayne without options sells for $3331 today. It is the wide variety range of options that exist today that raise the price of a car.

The trends in buying cars today are to go for the sporty types with hardtops, options, and vinyl roofs, and also toward multiple-car families. Mr. Williams believes the automobile industry will expand as rapidly in the next ten years as it has in the last ten.

But selling is only part of Stirling Motors; service is also very important. Service was the reason for the construction of the new building and showroom in March, 1964. It is also the reason for 31 employees, including the staff of an Imperial Oil Service Station in Marmora.

Contrary to rumours, Mr. Williams has no intention of selling the business, but hopes to expand to increase service in future years.

Wells Ford and Mercury Sales Ltd.

The News-Argus visited Wells Ford and Mercury Sales Ltd. and spoke to Alan Wells, son of the owner of the establishment, Mr. Harold Wells. Mr. Wells (Harold) first worked at Baker's Garage in Stirling and then, 40 years ago, began the operation that is now Wells Ford and Mercury Sales Ltd.

The first product sold was McCall-Frontenac gasoline, which was later bought out by Texaco, the gasoline now sold at Wells. Chrysler was the car Mr. Wells orginally dealt in; now he sells everything Ford builds. Actually, Mr. Wells is a dual dealer, he handles both Ford products and Mercury products.

There are about twenty employees at Wells Ford and Mercury. Two of them, Carl Potter and Elwood Wilson, have been working there so long as to be senior members of the establishment, along with Mr. Wells.

Business has tripled at Wells Ford and Murcury in the last ten years and this has been shown in the expansion undertaken. Two extensions were built onto the workshop and a body shop was built about 1962. The new showroom was built in 1968. In the future, Mr. Wells hopes to get his entire business under one roof.

Wells Ford and Mercury has expanded from the days when a new car cost about $1000. besides dealing in new cars. Mr. Wells also deals in used cars and servicing.

The Ford training technicians at Wells, using the latest scope and diagnostic equipment, along with the standard equipment, can fix anything on a car ,

Mr. Alan Wells sees fewer and bigger car dealerships in the future.

BLACK and WHITE

We are happy to report that a number of Senior Citizens who have been in the sick bay were able to show up at our meeting Thursday.

George McMullen had a birthday last week and is just plain lucky. His daughter Marion Sharpe and his daughter in law Helen McMullen, came waltzing in laden with a lot of good things to eat including two very large birthday cakes. These were made large enough to share with Delia Descent and Fred Heasman who also were celebrating a birthday.

These two girls proved to us that they did not approve of colour discrimination for one baked a white cake and the other a deep chocolate colour.

George, Delia and Fred each expressed their thanks to the girls who had been so kind to them.

We were all happy to nose in on this party and many expressions of good wishes were extended — including a big thanks to the girls.

They Say:

Once a widower was so lazy he married his first wife's sister so he wouldn't have to break in a new mother-in-law.

In Hollywood they get married in the morning. That way, if it doesn't work out, you haven't wasted the whole day.

Don't we have fun?

Stirling Pee Wees Take Game Lead In League Finals

Stirling Pee Wees won the first game of their 3 out of 5 league final playoffs against Madoc. Score of the game was 9-3. Marksmen for the Stirling club were Doug Bastedo, David Jeffs with single, Cliff Reid and Robbie deJong with 2 each and Kevin Solmes with 3 goals.

The Stirling boys then travelled to Madoc and lost to the home team 1-0. The boys had a lot of shots on goal and at times it seemed impossible for the Madoc goalie to stop them, but he did as the score indicated.

On Friday night the Madoc team travelled to Stirling for a third game. Stirling showed leadership as they overpowered the Madoc squad 8 to 3. Five of the 8 goals were scored in the ten minute overtime. Madoc had a 3-1 lead at one time, but Stirling put on a tremendous show and tied up the game.

In the overtime Stirling outplayed and outskated the Madoc club and scored five goals to make the final count 8-3.

Goal scorers were: Stan Myers, Mark Dobson, Cliff Reid with singles, Robert deJong with two and Kevin Solmes with the hat trick.

Call For Critical Assessment and Taxation Report

Editor,
The Stirling News-Argus:

A comprehensive report regarding farm assessment and taxation for 1970 has been written by A. N. MacKay, chairman of the Committee on Farm Assessment and Taxation for Ontario.

In my estimation, a copy of said report and tactics to be employed should be studied well and a good number of questions should be asked of your Reeve and also the County Warden of your district.

Here are some questions you should know about and undoubtedly there are many more pertinent questions regarding the Assessment and Taxation of your property.

The evaluation suggested on the qualities of land found on your farm which are numbered from Grades one to seven and estimated from $200 per acre down to $15 per acre, and no less, also how these grades apply to your buildings in number and condition as found at the time of assessment.

Particularly, questions regarding a manual in plain Grade 8 English that could be procured or mailed to the owners of farms and taxpayers at all levels from the assessment department of the Ontario Municipal Board, free of charge, so that farmers and taxpayers might intelligently confer with the assessors, Court of Revision or Higher Court, if and when an appeal reached this situation, to get an honest, just, evaluation.

Why educate inexperienced men for this purpose, when men of years of actual experience and practicability are available with farm, orchard, milk, weed and bug control and pollution? These men have management experience and could be educated more easily and be more knowledgeable.

These men can be found in farming areas. Villages adjacent to these areas. Men who have been brought up and actually experienced these conditions from before daylight until long after dark, every day of the year.

When assessing farms, what soil qualities workable or otherwise, as no two farms are alike side by side?

When this assessing is complete, is a farmer to be compelled to produce from every square foot of land deemed workable, regardless of hill, stone, bush, swamp, underbrush etc?

Where does drainage come in and at whose expense, regardless of distance required, plus the protection of your neighbor from dumping or flooding his land?

What about milk contracts, veterinary services, cheese factories,, local or municipal schools rather than bus transportation up to Grade 8 level? Even United States is recommending the old school house be brought back into existence.

After assessment is completed, how are taxes to be paid? By the month, semi-yearly or yearly — and if they cannot be met, what happens — and in what period of time?

If taxes are paid in advance, what discount is allowed?

To whom are the taxes to be paid? A tax collector locally, by mail to the County or Regional office wherever it may be? Will cheques, certified without exchange be accepted, regard less of distance?

What penalty is applied when late, or what days of grace could be expected, due to illness, disaster or epidemic?

Whose signature would be required at the local level to recommend consideration be granted and how prompt could this consideration be expected — days, weeks or months?

If no money were available, where can assistance in food, medical and relief be procured immediately when telephone, hydro and water are not even available or shut off?

Why can't we know the answers now, or are we too late?

If this is to take five years to be put into operation, why should some municipalities pay the increase in taxes — not subsidize?

Why not the whole province pay at the same time?

When farms are sold today — is the sale price the basis for taxation?

Does taxation fluctuate with the sale price of farm when the farm is sold for more or less found on the deed of the property?

Is all real estate taxation based the same way?

Why is sale price of real estate put on the deed?

Does the sale price of the farm include just the buildings and land and orchard, if any?

What about stock, milk contracts, tractors and farm implements, milk coolers, milking machines, orchard sprayers, hay elevators and silo unloaders?

Define.

These are just a few questions but I feel that they are quite important and would appreciate any comments from interested persons who would like to delve further into this assessment and taxation question.

Regional Jail Construction Well Under Way

Two large buildings under construction in the Napanee area are starting to take shape and a third is about six weeks behind schedule.

The new H. D. Lee Co. garment manufacturing plant is now almost completely enclosed and has undergone the speediest construction of the three now under way. The Quinte Regional Detention Centre and the county home for the aged are not yet to the advanced stages of construction.

Foundations are in and some floors at the detention centre are covered. Roofing has been partially completed and workmen are concentrating on the interior during the cold weather spells. For several days during the long "below zero" weather streak, the work-site was idled.

The $2.6 million jail has a scheduled completion date of October. It is to house up to 104 male and female prisoners from Hastings, Frontenac, Prince Edward and Lennox and Addington counties.

H. D. Lee officials set no specific date for completion of their $300,000 plant. However, another source said it was expected to take between three and five months. Construction began in mid-November.

Completion date for the county aged home "Lenadco," is still set for June, despite a six-week setback because of structural steel. The roof is up on one wing and partitions and windows are being installed. Without the structural steel most of the building's construction may be placed even further behind schedule.

A spokesman for the work crew said they will have to doubble their work force to meet the scheduled completion date.

Unhappy West

This, in essence, is the problem he faces. The major employer and economic well-spring of the West—wheat —is having chronic problems which seems, at least in the short-run to be insoluble. The alternatives which would be more development of mining industries, face new barriers contemplated by the Federal Government. Is it any wonder there is ample frustration about?

Eastern Canada, particularly Government leaders in Ottawa, have to do more than endure and acknowledge this new dimension to Western discontent. The Prairies feel, with sofe justification, that they are caught in an economic trough. They just can't bear wheat problems and reduced tax incentives to mining — both at the same time.

God's Retarded Children

God's children are the little ones
Who will forever dwell
Where childhood glows with golden suns
And moonlit miracles.
These children cannot leave the walls
Of infancy to grow
Into adulthood's marble halls
Where other children go.
So, consequently, sin and shame;
And tragedy; cannot touch
God's dear children, and their name
Is free from blot or stain.
Like Angels on this earth they stay,
The beautiful and odd,
From Heaven just a step away
And very close to God.

We swung away with 2 points from the Hot Shots, bringing us all the way up to 47 points and giving the Hot Shots an even 80. The Flyers are still leading with 90 points and the Jets are in third place with 63.

Ray Poste still holds high average of 234 for the men and Verna Woodbeck 205 for the ladies.

Ray Rose had three good games of 235, 235 and 213 to tie Ray Poste for high triple of 683. Daisy Corbett took the honours Friday night for the ladies with games of 212, 246 and 149 with a triple of 607. Rosa Spry had high single for the ladies of 253 and Ralph Park for the men of 270.

This is a small warning. Never bet money on games with the proprietor of a bowling Alley.

THE BIBLE TODAY

He was a Nigerian jobbing printer who produced cards used for stock control in Bible House, Apapa. His equipment is limited, and he works in a tiny shed in Lagos where the best he had been able to do had been to produce some of the attractive posters used for Bible Sunday in Nigeria. But he is more than a printer and recently he appeared in Bible House with the sum of $270.00 which he had collected from over 200 people as their fee to become personal members of the Bible Society. For him the Bible Society was not just a customer to be supplied with print — it was a cause to which he felt he wanted to contribute something of his own.

Letter To The Editor

Editor,
The Stirling News-Argus:

It is with grave concern that I note utterances such as the one made recently by Mayor J. Russell Scott and others in the larger urban centres.

In speaking of the possibility of Trenton and Belleville and surrounding areas becoming one metropolitan area with a population of some 70,000, Dr. Scott was quoted as saying in part, "We have regional government in our school board, but we must get together or we will have legislation that will tie us in with the old ways and Trenton and Belleville will be part of the old county system.

"I don't think that the counties are qualified to run the communities of Belleville and Trenton. They have no experience in the construction of roads (except the occasional secondary roads, in borrowing money or with urban problems."

* * *

We wonder whether or not the people of Belleville and their Mayor appreciate the fact that a great deal of their prosperity in the past has been provided by the taxpayers of Hastings County and who continue to pour monies into the pockets of merchants and institutions located in Belleville.

May I suggest to Dr. Scott that he review the income of Belleville as derived from the County Hospital, Hastings Manor, County Administrative Buildings and many more other facets of Hastings county business, which is conducted within Belleville by people living in Belleville and paid for by the people of Hastings county.

Now that regional education is a fact and Belleville is again deriving most of the financial benefits, he feels that the Belleville - Trenton metropolitan area should divest themselves from the balance of the county and continue the feudal system in a more elegant manner.

Because education is the largest user of the tax dollar, I think that those who will pay alike, under the new assessment system, should "Share Alike". Is it possible that Dr. Scott is not paying enough taxes on lands in north Hastings?

Dr. Scott states that other municipalities in Hastings haven't any experience building roads. They have the expert experience and advice of the Ontario Department of Highways. Look at our streets and then look at yours, Mr. Mayor.

Let the people of Hastings county beware of further intrusions into their rights and privileges.

River Valley W.I.

The monthly meeting of River Valley Women's Institute was held at the R.V.W.I. "Centre" on Thursday, February 5th. Mrs. Norman Rosebush was hostess and fifteen members were in attendance.

Mrs. Roy Tucker opened with the Institute Ode and The Mary Stewart Collect. She voiced thanks to all who assisted with the recent banquet at the Fish and Game Club.

The roll call centred on the theme "Name an article displayed in an old country store, not seen today". A large array of articles was named.

Mrs. Gerald Brooks read the minutes and thank-you notes. She distributed the various convenors' reports received from The Federated Women's Institutes of Ontario, which gave up-to-date news.

Mrs. J. L. Donohoe gave the financial picture and a report of the expenditures of the recent banquet.

Mrs. Claude Tucker wll be in charge of a special bee at the Centre on Thursday, February 19th, at one o'clock to fashion 1970 gifts.

The March meeting will be held at the home of the curator, Mrs. Roy Bush. The Tweedsmuir History Book will be exhibited.

The convenors reports were as follows: Mrs. Glenn Bush, The ski tow; Mrs. Roy Irven, Our Canadian Wild Ginger Plant; Mrs. Ernest Carr, Educating Children Out-of-Doors.

The Public Relations officer, Mrs. Percy MacMullen, read from a recent F.W.I.O. report that the Women's Institutes in Ontario donated ten thousand dollars more to other organiations than they gave to Institute projects. Surely it is time that Branches review their objectives and not lose sight of their educational and cultural aspect. Our 75th Anniversary Fund is the only project sponsored by F.W.I.O. and your continued support is needed in order to reach the goal by 1972.

The A.C.W.W. Secretary reported $1.40 in the penny jar for January. She read a very interesting account of "The Yellowknife Seminar" held in July, 1969, as published in The Countrywoman Magazine; also the story of an Indian woman, Mary Firth, and her visit to Guelph to attend the National Convention of F.W.I.C. The Pennies for Friendship were gathered

A report of the property committee was given and plans were made to cater for a wedding.

Mrs. Ernest Carr presided over the programme and read a selection, after which all sang "The Maple Leaf Forever".

The motto, "The Three R's for Home Training Are Respect, Reverence and Responsibility" was prepared by Mrs. Don Donohoe and read by the president. This stressed that respect, reverence and responsibility all have to be taught when a person is really young. Sometimes example speaks louder than words. If parents set a good example, some of it is bound to rub off on the children, who will be our adults of tomorrow.

Mrs. James Hoard sang, with Mrs. Harry Morrow giving piano accompaniment

The Resolution Convenor, Mrs. Percy MacMullen, gave a paper on that theme. She read a few excerpts from the hand book. A resolution should be carefully studied and then prepared. The first organization in 1897, at Stoney Creek, decided resolutions were a very important part of their study. In closing, she told of the eight resolutions that were sustained at the Provincial Board meeting.

The convenor read The History of Canada for the past 478 years. In 1492, Christopher Columbus, after five very anxious weeks in the ocean discovered America. The account gave a very historic picture, dealing with Canadianization down through the years. Canada has taken great strides in developing her natural resources and she has become a wonderful industrial and manufacturing country.

A contest, "Names of Businessmen of Stirling", was of interest. At the close all sang the Institute Grace. The hostess and refreshment committee served a Valentine luncheon and the president voiced appreciative thanks to all.

Time Is Running Out

(by Savandrola)

The call for clarion action;
The mighty and the strong
Must join now as a faction
To sweep the work along.

Uphold the right, despise the wrong
No matter what the cost may be.
With will and vigor serge along;
A triumph for the world to see.

Some will chose through ignorance
But ignorance is not excused by law.
Some men pleasers are held within a trance
They are but puppets under a cat's paw.

For all must choose and that right now;
The time grows very near.
Each individual choice must bow
To decisions that are icy clear.

And know this deal is for ruddy keeps
So choose ye wise and well.
Events and happenings come in leaps
Before the closing bell.

Outdoor Life IN HASTINGS with ART MacCONNELL

WINTER VISITORS

No doubt you have recently noticed several of our less popular or less known species of birds in our vicinity. Every winter there are several species that move in with the arctic temperatures and although most of these feathered friends are able to fend for themselves, no doubt a tray of seeds or crumbs and piece of suet looks much easier and enticing for them. There are all kinds of wild seeds sticking through the snow and several of our trees have delicious buds which several species thrive on.

Some types such as the Crossbill, eat snow readily when water supplies are cut off.

If you do not have a feeder tray, you can still feed the birds simply by throwing your stale bread or crackers out the back door onto the snow and don't worry, the birds will find the bountiful treat.

Although there are some species such as the Blue Jay and Canada Jay and Downy Woodpecker or White Breasted Nuthatch that stay year around, you will see Juncos, Red Crossbills whose name describes it, as its upper and lower bills actually cross one another; the Chikadee; Evening Grosbeaks that you see feeding on maple key seeds and are a yellowish white and black colour and usually travel in large flocks. The Pine Grosbeak which is more of a wilderness bird and is a rosy red and black colour, but otherwise pretty much identical to the Evening Grosbeak.

The Snow Bunting that feeds mainly in pastures and roadsides upon weed seeds is very common.

Just recently one of my readers informed me of the presence of an Arctic Owl in the area. This occurence is quite regular about every four years as the food shortage in the Arctic contributes towards it. They are very large, white birds, with wing spans up to five feet from tip to tip. They hunt rabbits, rats, mice and an occasional duck.

If you have the chance to observe one, you will realize one of the wonders of nature. These great Arctic birds hunt mainly by daylight and will perch in a tree usually in fairly open terrain, so your chances of seeing one are pretty good. Because of their colouration and physical size, you could spot one on the wing at a great distance.

It should be pointed out also that these birds are highly protected and destruction of them should be avoided as they are one more link in the balance of nature.

Jehovah's Witnesses Hold Assembly In Campbellford

"If we want our religion to please God, it must be a living, vibrant force in our lives, but above all it must be in harmony with God's will," Jehovah's Witnesses were told at their assembly in Campbellford recently.

Speaking to an audience of 746, Convention Chairman Arthur Powley of Toronto hit hard at "those who would reduce the worship of the Creator to a once-a-week, do-as-you-please religion."

Following the theme, 'True Worship Versus the False', Powley dealt with the conflict between the Baal worshippers of ancient Israel and those who worshiped the Creator, Jehovah.

Basing his discussion on First Kings Chapter 18, Powley said, "Many people today would be shocked at the attitude of Elijah, the champion of true worship. They would consider him narrow-minded, bigoted, fanatical. The modern religious spirit is to be liberal, telling others to worship any way they want."

Drawing a modern parallel, Powley said that no one should be deluded into thinking that God approves any kind of religion as long as it is practiced sincerely. "The Baal worshipers in ancient Israel were idol worshipers. No doubt they were sincere. Did this sincerity help them win God's favour?" he asked. 'No, they were put to death, and that with Jehovah's approval. Do we have idol worshippers today? Of course we do, and not just in pagandom, but in Christendom as well! Although the Bible is very specific in its condemnation of image worship, yet the cross as well as statues and other religious symbols are worshiped."

Powley asked the audience, "Where do you stand in the matter of worship? Are you like the deluded Israelites who were, as the prophet Elijah, charged, 'limping along on two different religious opinions'? Do you profess to worship God and yet worship idols in reality?"

Criticizing those who mix religion and politics, Powley said, "To be true worhippers we must be different from mere professing Christians. We must be like the Christians of the first century. Of them it was said, 'The Christians were strangers and pilgrims in the world around them. The kingdom to which they looked was not of this world. The consequent want of interest in public affairs came . . . to be a noticeable feature of Christianity.'

As evidence that Jehovah's Witnesses are really like the first-century Christians, Powley read excerpts from a trial of a Witness in Communist Poland in which the prosecuting attorney stated concerning them: "They do not go to the polls, they refuse to salute the flag and do not serve in the army. Jehovah's Witnesses upset the present order just as much as the first Christians did. The Roman emperor could not suffer it and so Jehovah's Witnesses cannot be tolerated either."

Mr. John Orser, minister of the Stirling congregation was in charge the more than six hundred delegates. of the Cafeteria Department to feed

Twenty-seven Witnesses from the Stirling area were delegates at the three day convention.

A Letter To The Editor

Dear Sir:

Is there no ordinance in this town that compels homeowners to clear the snow from the front sidewalk after each snow fall?

I've lived here in Stirling for nine years and with the help of my boys have managed to keep the walk clear for nine winters. This is more than I can say for some other people on Front Street West. I'm quite sure that if some of the elderly gentlemen in Stirling can get out and clear their walks, there should be no problem with younger people — especially when they have able-bodied boys.

It appears that many of our so-called prominent citizens are above cleaning their walks. What's wrong with their sons? Are they too tired from riding around in snow cruisers or are they just plain too lazy?

The corner of Front and Emily is a hazard to our older people and the corner of Emma and Front has never been cleared in the nine years I've lived here.

If these people haven't the common courtesy to clear their walks on their own, then the Village should pass a law to see that they do. You haven't to look far from Stirling to see such laws in effect.

Yours truly,
Robert Crossman

Among the guests were Mr. Marvin Cooney and daughter Joy, Mrs. Edward Driver, Florida; Mr. Albert Tyron Jr., and sister Mrs. Edward Mussell, California.

Mr. and Mrs. George Heasman spent the week end in Toronto visiting relatives.

Seaway Motor Hotel Bowling Promotion

For the week of February 2nd the Seaway Motor Hotel "Dinner for Two" certificates were for the hidden scores of 203 for the ladies and 226 for the men. In each case there was a tie. Heather McGee had 205 on Friday afternoon and Delia Reichert 205 on Friday night. Bob Corbett had 225 and Bob Morrell 227 on Monday night league.

The tie was broken by taking the nearest score to the hidden scores on the next week's bowling in the same league with the following results — Delia Reichert had a 208 game and Bob Corbett a 223 game.

Youth Bowling Council "Four Steps To Stardom"

On Sunday afternoon, the D & A Lanes at Trenton were filled to capacity with Youth Bowling Council bowlers and interested relatives for the Zone Round of the "Four Steps to Stardom" Tournament.

Stirling Bowl-O-Drome had twenty-one bowlers taking part. They did well in some categories and not so well in others; but all did their best and behaved well.

We had seconds in three events — Susan Wright in the Junior Girls' Single; Paul Jones in the Junior Boys' Singles and the Junior Girls' team of Julie Hunter, Jill West, Jean Edgar, Karen Wilson and Bantam Debbie Montgomery, who was our spare bowler. In all fairness to this team, I think we should mention that they would have won if it had not been for the fouls they had. We also had one third place — the Senior Boys' Singles, Barry Wilson.

This was the first time any of our bowlers had had the opportunity of taking part in this tournament and it was a wonderful experience for them. We hope they gained much from it. All the bowlers would like to thank the parents, other relatives and friends who helped in any way, especially Mr. and Mrs. J. Wright, Mrs. R. Clements, Mrs. R. Milligan, Mrs. B. Jones, Mr. and Mrs. D. Reilly, Miss Ann Loucks and Mr. A. Loucks (he was ill but supplied a car and driver) and Mr. R. Poste for transportation and Mrs. H. West for coaching.

THE GOOD DRIVER

Police pursuit of lawbreakers driving at high speed raises difficult programs. It means danger for the public, as well as for those involved. But it is scarcely realistic to insist that police should always observe speed limits; it would serve notice on car thieves and other criminals that all they have to do to avoid apprehension is to step on the gas. Roadblocks, such as police cars parked across the road, can sometimes be used to stop fleeing cars; but this also involves considerable danger.

The FBI Law Enforcement Bulletin, Nov. 1969, describes an emergency roadblock which can stop a car travelling at 80 mph in less than 200 ft. The Ontario Safety League says the device consists of a net assembly strung across the road. It is small enough to be carried in the trunk of a police car, and causes little damage to the car being stopped. The device can also be used for various traffic control purposes.

* * *

Coroner's jury often make recommendations which are completely impractical, but not so in this case reported by the Ontario Safety League.

A car in Britain which killed the driver was attributed to the vehicle having a combination of cross-ply and radial-ply tires. Because the driver may not have known that it is dangerous to mix the two types, the coroner's jury recommended that all radial-ply tires have the word "Radial" marked clearly on the sidewalls. All U.K. tire manufacturers are modifying their molds to comply with the recommendation.

* * *

"Motor vehicle madness" is a phrase used by the Insurance Bureau of Canada in describing the irresponsible driving that is forcing companies to review their claim costs continuously.

Industry figures quoted by the Ontario Safety League show that in the past four years the cost of car insurance has risen by about 10%. By contrast in the same period weekly wages have risen 30%, cost of living 17%, doctors' fees 21%, gas 12½%, fender replacement 37½%. IBC state that automobile insurance is a victim of and not a contributor to inflation in Canada.

* * *

There is great need for driver training in the skills needed to handle motorcycles, says the Ontario Safety League. U.S. accident records indicate that 70% of motorcycle crashes involved borrowed or rented motorcycles, and 20% of fatalities occurred to drivers taking their first ride.

* * *

Here are some snowmobile facts from the Ontario Safety League.

There are over 100,000 snowmobiles being used in Ontario at the present time by approximately a quarter of a million people; this is about one-sixteenth of the total population of Ontario.

Snowmobiling is a billion dollar business. It has opened up the vacation lands of Ontario for year-round use and given the resort areas a greatly needed economic lift.

Members of the Ontario Safety League staff have been using, testing and experimenting with various makes and models of snowmobiles for the last eight years. It has been found that these motorized snow vehicles perform well when operated on snow. Under these conditions they are easily controlled, reliable and seldom break down if properly maintained and operated. On hard-packed snow or ice, such as well-travelled roadways, a snowmobile is practically unmanageable at any speed. For proper propulsion, braking and steering, the track and skis of a snowmobile must have snow to bite into.

To date, there have been 17 snowmobile deaths in Ontario to the knowledge of the Ontario Safety League. Fifteen of these fatal accidents occurred on public thoroughfares, thirteen of them involving collision with motor vehicles. The Ontario record reflects that of other provinces in Canada in proportion to the number of units in use it is the highest fatality rate of any recreational activity in the world.

The Ontario Safety League appeals to everyone interested in snowmobiling; provincial and municipal governments, snowmobile manufacturers, clubs and individual users to take a long, sane look at the above facts; then decide what must be done to stop these needless snowmobile deaths and promote the healthy growth of this valuable recreation.

Make your decision and take some action, NOW!

Dollars and Good Sense

by WILLIAM J. MARTIN

This column is a regular weekly feature prepared by the family Financial Councelling Service of the Avco Delta Corporation, P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered, in print or by return mail. Names will not be used in print However, all questions should be accompanied by a complete name and address.

QUESTION — Dear Mr. Martin: We have to replace our refrigerator soon and are in the process of shopping around for a new one. Do you have any tips on what to look for in a new model and also how long should we pay on it?

Mrs. D.F.

ANSWER — Let me answer the latter part of your question first -- "how long should the instalment contract run?" The rule for major electrical appliances is about twenty-four months, but since the refrigerator is probably the most expensive electrical appliance in your house, you could extend the contract to about 30 months.

In connection with the length of instalment contracts, you might also be interested in the following as a guide for the purchase of other items:

1. Furniture — Between one year and 18 months.
2. Jewelry — Generally 12 months is the limit.
3. Television — About 18 months.
4. Automobile — Usually 30 to 36 months.

Remember, though, that you should never really stretch yourself to the limit. The instalment contract that is paid off conveniently leaves more satisfaction behind it than one that becomes burdensome before the last payment is due. Generally, though, you should not still be making payments on a purchase or a loan long after it has ceased to benefit you.

So far as selecting a model to fit your needs, it's very difficult to advise you. I can only tell you that you could consider the size of your family in relation to the size of the unit you intend to buy. The best advice I could give you is to discuss this with the appliance people at your department or appliance store.

Certainly, you will want to consider such things as adequate freezer space and automatic defroster. An automatic element is a very convenient item to have, but remember that it will cost you about $75 more than a non-automatic model. Remember, too, that operation costs (electricity) will be about doubled.

If your old refrigerator is still in pretty good condition you might want to keep it for additional storage and freezer space. You won't get much (if anything) with it as a trade-in, but it will provide you some savings when you shop for meat and other items on sale which may be frozen.

When you do decide to buy the model that best suits your needs, be sure and read the instalment contract very carefully. Be certain you understand everything in it, including all guarantees and waranties. Then, meet your payments promptly; take good care of the product until at least you have paid in full for it; and notify the store or lender when you change your address.

AS IT HAPPENS

Canadians have the world's second most severe mass case of "telephonitis". This so-called "disease" is particularly rampart on Monday nights when CBC radio's As It Happens roller-coasts across the country for two hours, beginning at 8:03 p.m. local time. The bearded gentleman on right is artist-turned-broadcaster William Ronald, host of the show, who talks to people making headlines in Canada, or anywhere. He's ably assisted by Newfoundlander Harry Brown (left). The show is live and lively, mainly because the people at both ends of the line always have something interesting to say.

Council To Have Heating Plant At Theatre Checked By Engineer

Stirling Village Council met on Monday, February 16th, with Reeve D. W. Rodgers in the chair. Councillors Robert Anderson, Maurice Faulkner and Claude Trumble were in attendance.

Mr. Robert Ewing was present in regard to a parking ticket he received for parking in front of the Fire Hall. Due to the fact that no signs were visible, the ticket was written off.

Mr. Douglas Robson, representing H. C. Martin Insurance spoke to Council on the Village Insurance. Each policy was explained to Council in detail. He also reported to Council on various complaints that had been received on snowmobiles and how The Stirling Snowmobile Club were endeavoring to create good public relations in the Village, and also asked to have the Club informed on any future complaints that were received.

Mr. George Rhynsburger, By-Law Officer, also spoke on this same problem and on certain parking problems. He agreed to make a study of the necessary parking signs needed in the Village with Frank Broekema.

Clerk-Treasurer, W. L. Pollock, read the following correspondence:- Elaine Footwear (Stirling) Ltd., 1970 Assessment and Taxation; Department of Municipal Affairs, Data Processing for The Region and the Registration of By-Law No. 727-69; Minister of Financial and Commercial Affairs, Regulations for Licencing of Lotteries; The Ontario Water Resources Commission, 1970 Budget; Chairman Regional Conference May 22, 23, 24 Meeting; Olivetti-Underwood, Adding Machine; Ontario Department of Education, Arbitration of Assets and Liabilities of Former School Boards.

A discussion was held regarding the Community Hall, as many complaints have been received of the Theatre being cold, especially on the 6th of February. The heating of this building was discussed at great length and the Clerk was instructed to contact The Napanee Boiler Co and have an Engineer inspect the building and try and find a solution to the heating problem.

The Clerk was instructed to write Hisey and Barrington Consulting Engineers, with a request to up-date the Sewer system , to include Sewers on Old Marmora Road, Frankford Road, North Street and Henry Street. This motion was moved by Anderson and Faulkner.

Clerk was also instructed to contact Mr. Donald Royce and have him make a survey of the property needed to widen the Highway in front of Mr. Clarence Copeland's house on the Belleville Road.

The Clerk was instructed to have the Building Inspector check the outside steps placed at 63 Front Street, West.

A letter was read, which was directed to the Hastings County, from the Stirling Library Board, with a request for a larger grant. Council unanimously concurred with the request.

Plans were discussed for the renovation of the Kitchen in the Community Hall, as well as the wash rooms downstairs. Further study was laid over to a later date.

Motion by Faulkner and Trumble that the following accounts be paid,-

General

John W. Gibson, $35.28; Stirling Motors Ltd., $101.43; City of Belleville, $13.94; W. L. Pollock, $56.63; The Workmen's Compensation Board, $373.05; Olivetti-Underwood, $49.98; PCO Services, $25.00; Stirling Machine Shop, $2.50; H. C. Martin Insurance, $800.11; McInroy-Maines Construction Ltd., $50.00.

Community Hall

John W. Gibson, $25.77; H. C. Martin, Insurance, $306.79.

Cemetery

H. C. Martin Insurance, $18.90.

Council discussed at some length what should be done about Lawnmowers for the cemetery for 1970. Laid over till a later date.

Council discussed at great length the situation of the sewers on Nancy street, serving the Wartime houses. Council has tried to secure an agreement with all property owners for permission to enter upon their land to service and maintain the sewer line. To date only 7 have signed this agreement with 10 not signed at this date. It was the decision of Council to try once more to have all property owners sign. If not possible, they would have no alternative but to pass a By-Law and install a new sewer line up Nancy street, under local improvement, with the entire cost charged to the property owners according to the number of feet of frontage.

Council duly adjourned to meet again March, 2, at 7.30.

Scout Movement Annual Father and Son Banquet

The annual Father and son Banquet for Stirling Cubs Scouts and Venturers was held at St. Andrew's Presbyterian Church on February 20th with 103 in attendance.

Although a larger crowd was anticipated, an enjoyable supper was served. Graham Mouck with piano accompaniment by Rev. Bruce Small led in a lively sing song. Two very interesting films were shown by Blake Faulkner, dealing with outdoor life for those who remained until the conclusion of the evening.

Maurice Faulkner, Chairman of the Cub and Scout Group Committee, would like to thank everyone who donated their time and efforts to make the evening a success. A special thank you should go to the Presbyterian Women, who supplied the delicious supper.

Since several of the leaders will be retiring this year, new leaders are urgently required, if the Cubs, Scouts and Venturers are to be continued in this area. Anyone willing to help should contact one of the members of the Group Committee or one of the leaders.

HIS or HERS

Some thirty Senior Citizens met last week and really had a ball. When they play, they play to win and all agree that winning isn't everything; but it's better than coming second.

President Fred thanked Gertrude Belshaw and Fanny Kane, who had the feed job, for nobly fulfilling their contract.

Girls Win Two

Stirling Girls' Hockey team, "Ken Sine Fuels", continued their winning ways last week.

Lakeshore Lots To Be Sold By Auction

Clarke T. Rollins, MPP Hastings, announces that he has been assured by the Honourable Rene Brunelle that lakeshore lots in Hastings County in the Tweed District will be sold by auction and not by lottery which may be experimented with only in the Lindsay District.

SPACE AND EDUCATION

The theme for Education Week this year is "Space and Education". This is quite appropriate as the space achievements of this era have resulted in the most startling series of events in the history of mankind.

Many changes have occurred both in technology and in education. In keeping with these changes, it appears that this will be a decade of change for our educational system These changes will result in considering students more as individuals. They will have freedom to learn and will obtain greater understanding of themselves and the world in which they live.

Community Party At River Valley

By Mrs. Percy MacMullen

On Saturday evening, February 14th, River Valley Women's Institute sponsored a party at the Centre for the Valley community.

Eighty-five men, women and children were in attendance and this included fifteen institute members.

A bountiful pot-luck supper was enjoyed after all sang "The Institute Grace".

Each family provided food and dishes and there was no money involved, which made a free evening for those in attendance.

The president Mrs. Roy Tucker presided over the programme. She Brooks as pianist.

Mrs. George Grills read a selection.

Mr. and Mrs. Glenn Bennett conducted the assembly singing and later Mrs. Bennett gave a vocal solo.

Harvey Couch and son, Kenneth contributed several musical selections, accordian and harmonica.

Karen Woods gave an action song.

Several of the ladies sang "The Summary Day Song".

John Bush gave his school speech on "The River Valley Community."

The president voiced thanks to those who had prepared the two wall plaques which outlined W.I. activities and 4H Club work.

The secretary, Mrs. Gerald Brooks gave a few highlights pertaining to the 60th Anniversary as follows —

History of River Valley W.I.

In January 1910 a group of women gathered at the home of Mrs. William H. Hanna and organized River Valley W.I. with Mrs. Thomas Smith, president and Mrs. W. H. Hanna secretary. Three first year members are still living in this area — They are Mrs. Edgar Morrow, Mrs. Ethel Morrow (Mrs. Bert Bedford) and Miss Mabel Rosebush — Mrs. Charles Conley, however these women have not continued their membership throughout the years but they had a part in the bringing of W.I. work at River Valley.

The meeting day was set for the first Thursday of each month at 2 p.m.

Owing to weather conditions the second meeting was held in March 1910 at the home of Mrs. Edgar Morrow with thirteen ladies in attendance.

The programme consisted of "How to make a spice cake, by Mrs. F. Vandervoort, a Marmalade Cake by Mrs. B. Hatfield and lemon tarts by Miss Ethel Morrow.

A few of the topics at other meetings were "How to Make new Curtains, How to make putty, How to kill mites in the hen house, How to make soap. How to re-foot hand extended a welcome to all.

Brian Monteith gave his school speech on Airplanes.

A group of Valley boys sang "This Land is Your Land" with Mrs. Glenn knit socks, and the glue of kindness.

The programmes have changed over the sixty years as can be noted from the standing convenors of department of education. The motto in 1910 was "For Home and Country" and that is also the 1970 motto. The benefits of a Women's Institute to the community will be a worthwhile topic.

Mrs. Glen Bennett, treasurer of the property committee at the Centre gave a full financial statement to date.

A skit "How to sell anything to anybody" was given by Mrs. Jack Bush, Mrs. Ernest Carr and Mrs. Glenn Bennett.

The president voiced thanks to all and read a humorous item.

Music on the programme and also for dancing was provided by Kenneth Morrow, drums; Ernest Rosebush, Banjo; Norman Rosebush, violin; and Mrs. Philip Conley, piano. The squares were called by Jim McDonnell and Ed Kent.

The successful evening closed in theme of Auld Lang Syne.

River Valley W.I. Card Party

The seventh card party was held at the Centre Friday evening, February 20th with eleven tables in play. Several guests were in attendance from Stockdale, Stirling and Mount Pleasant. The Home Economics and Health Group convened the party and provided the refreshments.

The prize winners were — Ladies' high, Jean Donohoe; second, Vera Ross; consolation, Mrs. J. L. Donohoe; men's high, Jonn Kane; second, Gerald Brooks; consolation, Lloyd Dafoe. A prize donated by Mr. Wm. Ashby was won by Mrs. Geo. Sarles.

Behind every successful man is a man who says he went to school with him.

Easter Seal Target $1,600,000

The Ontario Society for Crippled Children is seeking 1,600,000 from the 1970 Ontario Easter Seal campaign which will extend from February 26 to March 29, Easter Sunday.

Announcement of the objective and dates were made by W. Deny Witaker, Ontario campaign chairman. Mr. Whitaker said an objective of $500,000 has been set for the Metropolitan Toronto area with the balance to be raised throughout the remainder of the province.

The campaign is sponsored by the Society in conjunction with 230 Easter Seal service clubs throughout Ontario. One half the funds raised by each club is retained by it for services and supplies for local needy handicapped youngsters.

In Stirling and district, the Stirling Rotary Club is the sponsoring service club.

The balance of the funds are used by the Ontario Society for Crippled Children to supply such province-wide services as nursing (the Society has 37 specially-trained nurses in 21 regional offices throughout Ontario) travelling clinics of medical specialists, research into crippling disorders of children and the operation and maintenance of the five summer camps owned by the Society.

Upon request, the Society will provide advice and assistance wherever possible to various active treatment Centres throughout Ontario and, in addition, subsidize the operating deficits of the Ontario Crippled Children's Centre in Toronto.

The latter is a world-renowned treatment and rehabilitation centre offering a complete range of services to the youngsters, including diagnostic and assessment services, a 105-bed hospital, a 17-room school, dental clinic, therapy, recreational facilities, psychological and social services, and orthotic and prosthetic research and development.

Mr. Whitaker emphasized that the Society's funds are used to provide services and supplies that extend beyond those covered by official hospitalization or health programs.

"Easter Seal contributions," he said, "provide a direct opportunity to assist the more than 14,000 handicapped youngsters in Ontario to take part in the life of the community."

National Farmers' Union 171 Meeting

The February meeting of Local 171 of National Farmers' Union was held at the home of Mr. and Mrs. James Mumby, with a good attendance.

Resolutions were drawn up, and forwarded on to the Regional Office.

The March meeting is to be held at the home of Mr. and Mrs. James Spry. Correspondence was read and dealt with.

The president welcomed and introduced our guest speaker, Mr. Perry Wilkes, manager of U.C.O of Campbellford, who gave a very inspiring talk on various subjects, such as the research of hens that are laying soft shell eggs and 60% of it is devoted to the shell, also the way the frozen eggs are put up in dozen cartons, the milk machines they have in Great Britain and they work 24 hrs a day, the protein is most important and it is made out of Alfalfa. soybeans and many green matters. It costs 70 cents a quart and will keep up to 7 weeks.

He also spoke on electricity and its great importance. Fertilizer and its many uses and a boom to gardening in the spring and dealt on "Credit" was the big topic, and touched on other subjects such as Jr. Farmers, etc.

Morton Reid thanked Mr. Wilkes for his most informative talk, that was enjoyed by all.

Stirling 4-H Club

The second meeting of the Stirling 4-H Homemaking Club was held on February 14th at Mrs. E. Wannamaker's home. President Judy Merrill called the meeting to order and it was opened with the 4-H Pledge and Motto. The members answered the roll call with the name of a book which they would like to own.

Discussion this time was concerned with making leisure a pleasure, the art of reading, travel etiquette and music appreciation. The girls tried a quiz on Travel Etiquette and learned a few points to help make travelling easier and more profitable.

Each member gave a brief report of the book which she had brought to the meeting. Afterwards the girls worked on their mobiles which are to be finished before the next meeting in two weeks.

Chatterton W.I.

The February meeting of Chatterton Women's Institute was held in the Church Hall wih eleven members present. The President, Mrs. Helen Reid, opened the meeting with the Opening Ode and Mary Stewart Collect. Roll call was make or bring an old fashioned valentine.

All joined in a sing song with pianist Mrs. Little and song leader Mrs. Carson. Each member took part in current events.

The meeting on Historical Research was taken by Mrs. Irvine in the absence of the convenor, Mrs. MacInnes. Mrs. Carson gave a reading "The Old Snow Storm."

Mrs. Irvine gave a paper prepared by Mrs. Nora Prest, "The Working Man in the Last Century." This paper was most interesting. The working class of any country is its life blood and among working people is to be found the most contentment, happiness and fulfillment of the purpose of life. Man is made for work with hands, feet and brain, not to push buttons, while it is not our intention to discredit improvement in any field of labour.

She explained how houses were built by hand.

Being a farm woman, you know all the ins and outs of the changes the last century has made in farming, gardening, cheese and butter making, making of maple syrup, raising fowl, curing meat, rendering out lard and tallow and many other home skills.

In the 1800's a working man's day was 7 a.m. to 6 p.m. Time was not changed from standard to daylight saving. Statute holidays were observed on the actual day it came on, not on the nearest week end.

A labouring man's wages was sufficient to keep his family. The wife did not work for wages, but cared for the home and family and kept within the family budget of $1.00 a day or $2.00 if a man took his team. There were no three shifts of 8 hours and very little night work.

Church services were held morning and evenings with churches filled.

The meeting closed with the W.I. Grace and benediction, after which the hostess and her assistants served a dainty lunch of fried chicken.

A beautiful woman is one you notice. A charming woman is one who notices you.

"SURVEY"

Past year surveys show that ice angling makes up to 40% of total annual fishing. This creates winter recreation, raises harvest levels, occasionally to a level exceeding mean annual production. Two types of fisheries are affected by ice fishing activities.

Warm Water Species

Pickerel, Pike, and Perch are angled for during winter months. Bass and Muskie seasons are closed and if one of these are caught should be returned unharmed to the water.

Warm water fish species are very prolific and are able to withstand considerable angling pressure without detrimental effects on populations. In waters where angling take approaches the productive capacity of the water, an overall reduction of fish size is often observed, as younger year classes enter the fishery. The The more old fish are taken by anglers the more food becomes available to younger fish. Consequently more young fish reach sufficient size to take a fishermans' hook. Where spawning beds are favourable and mature adults present, little additional help is needed in warm water fisheries.

"Cold Water Species"

This category includes all Trout and Whitefish. These species frequent the deeper, colder, purer and therefore poorer lakes. These waters are low in fertility, and fish carrying capacity is low. Fish stocking is only effective between the existing population level and the upper carrying capacity level of the particular lake. If the upper stocking level is exceeded natural starvation takes a high toll. Increasing popularity in ice fishing can not always be offset by additional fish planting. Where angler harvests exceed the production limits set by natural fertility a decline of angling quality is inevitable.

Anglers are encouraged to co-operate in fisheries management by forwarding information on fishing efforts and catch success to the Department of Lands and Forests. This enables the Dept. to carry out an extensive programme to replenish fish populations to a desired level.

St. Andrew's Presbyterian Women Monthly Meeting

The St. Andrew's Presbyterian Church Women met at the home of Mrs. K. Tompkins with 16 ladies in attendance.

Mrs. M. Fargey, president, opened the meeting with a prayer, with all joining in the Lord's Prayer.

The roll call was a Bible verse containing the word "love". The minutes and correspondence were read by the secretary, Mrs. K. Tompkins. Mrs. K. Ray, Mrs. C. Montgomery and Mrs. R. Eggleton reported on visiting the past month. Mrs. J. Johnston and Mrs. G. Haggerty will do visiting the next month. It was suggested that the ladies continue making shirts, hospital gowns and bandages. The ladies are catering to a banquet, Feb. 18. The offering gathered by Mrs. Johnston was dedicated by Mrs. Fargey.

The report of the Presbyterial meeting at St. Colomba Church, Belleville, was given by Mrs. K. Tompkins. Mrs. George Haggerty conducted the worship service with Mrs. C. Tummon acting musician. The hymn, "Come let us sing of a wonderful love", was sung Mrs. Haggerty read John 3:11-21,, then gave two items from Glad Tidings (1) How old is your mind (2) Prayer, as I grow older.

Miss Gena Spry gave the topic "God Loves You", beginning with prayer. She mentioned how children are affected by lack of parental love. God created man to love — to give love to others. Every man has feelings of love. God's love was compared to a rainbow, the rays being the pages of the Bible. The Cross expresses God's love for man. It is the world's greatest love story. Man is dependent on God's love. Love is costly — must be a human response to God's love. If love was strong enough, peace would endure. Peace isn't strong enough in man's heart to carry on, so we have war. The church needs a re-discoverer — the power of Christian love. Miss Spry closed with prayer.

Mrs. Fargey closed the meeting with the Benediction. Mrs. E. Fox thanked the hostess and all taking part in the days proceedings.

Dainty refreshments were served.

Friday Night Mixed Bowling League

On Friday night the Jets took 5 points from the Hot Shots, giving them a total of 68 points and leaving the Hot Shots still in second place with 82. The poor old Swingers, it's too bad they can't be at their best when the other teams are tired. Oh well, they took 2 points from the Flyers, making them a grand total of 49 points and the Flyers 95.

It seems very strange how our highest bowler on the league with an average of 232, can get so slack when there isn't any quarter involved. Just watch him next week.

Rosa Spry rolled the high triple for the ladies of 685, with games of 263, 234 and 188. She also had high single for the night. In the men's section Maurice Faulkner had high triple of 696 and Harold Morgan high single of 282.

Buy Canned Food By Canada Grade

To get the best buy for your money, home economist, MacDonald Institute, University Guelph, suggests buying canned fruit and vegetables by grade.

Canada Fancy: This is the highest grade. The product is as nearly perfect as possible: clean, free from blemishes, of good color, and uniform shape, and at perfect maturity. Only a clear liquid can be present. This grade is suitable for use where color and size is significant.

Canada Choice: This grade includes fruits and vegetables that are sound, clean and free from blemishes. Slight variation in size, color and maturity is allowed. The liquid must be fairly clear. This grade is best used when flavor and tenderness are required, but where uniformity in size and color is not important.

Canada Standard: Good quality products are used in this grade but uniformity of size is not considered. This grade of fruit is suitable for puddings, gelatin or frozen dishes; vegetables are good for soups, casseroles or scalloped dishes.
